# Northwestern

# Department of **Economics**

# BA/MA Degree Student Handbook

February 2022

## **Changes since Last Edition**

•	Expanded description of appropriate mathematics preparation		

This handbook is reissued as necessary, and represents the policies and degree requirements of the Department of Economics as of the date on the cover.

The requirements in this document are in addition to, or further elaborate upon, the general degree requirements and the policies on satisfactory progress, probation and exclusion adopted by The Graduate School of Northwestern University.

Updates to the handbook during the academic year will be posted on the Department's website:

https://www.economics.northwestern.edu under the "Undergraduate" tab.

The program gives outstanding, qualified undergraduate majors an opportunity to earn both a Bachelor of Arts degree from the College and a Master of Arts degree from The Graduate School. Because the program is very demanding, admission is highly selective. Interested students should talk with the Director of Undergraduate Studies early in their careers at Northwestern. The program provides excellent preparation for further graduate study in economics or for professional positions in economic research.

# Degree Requirements

**Total Units Required: 9** 

Total Units Required: 9			
Course	Title		
Core Courses			
ECON 401	Mathematical Methods of Economic Theory		
ECON 410-1	Microeconomics		
ECON 411-1	Macroeconomics		
Either			
ECON 410-2 & ECON 410-3	Microeconomics		
or			
ECON 411-2 & ECON 411-3	Macroeconomics		
Economic History or Development			
One of those listed below			
ECON 315-0	Topics in Economic History		
ECON 323-1	Economic History of the United States Before 1865		
ECON 323-2	Economic History of the United States 1865 to Present		
ECON 324-0	Western Economic History		
ECON 325-0	Economic Growth & Development		
ECON 326-0	The Economics of Developing Countries		
ECON 327-0	Economic Development in Africa		
ECON 420-1	American Economic History		
ECON 420-2	European Economic History		
ECON 425-1	Development Economics		
ECON 425-2	Development Economics		
ECON 425-3	Development Economics		

Course	Title
Electives	

Three additional approved Economics (300- or 400-level) courses, to be selected in consultation with, and approved by, the Director of Undergraduate Studies. Can include one unit of ECON 499-0 for students writing an independent thesis.

#### **Notes**

- Economics 401 Mathematical Methods of Economic Theory is an intensive, four-week mathematics course taught immediately prior to the fall quarter. It provides the proper mathematical background for graduate-level economics. The course addresses topics even mathematics majors may not have seen. The topics include linear algebra, multivariate calculus, convexity, constrained optimization, and some dynamics. This course is required for BA/MA candidates. Students will register for credit and grade in the fall quarter.
- An average grade of B (3.0) is required in courses taken for the MA degree, and candidates must have no incomplete grades on their records.

#### Other MA Degree Requirements

**Examinations:** final oral examination

Research/Projects: none specified

**Master's Thesis:** A thesis, either an independent one for the MA or one for honors in Economics or Math Methods in the Social Sciences that is administered through those programs under an Economics advisor. The thesis must be an original piece of economic research of journal-article length. The thesis must be submitted no later than four weeks before the end of the student's final quarter and found acceptable by two graduate faculty readers. A final oral examination on the thesis is conducted by the faculty readers. Students writing an independent thesis must enroll in ECON 499-0 *Independent Study* for the quarter in which the thesis is submitted. Students writing a suitable thesis for honors in their undergraduate degree must register for an additional graduate-level (300 or 400-level) economics course that is selected in consultation with, and approved by, the Director of Undergraduate Studies.

### Preparation

Potential candidates must carefully plan their first three years of undergraduate study in order to qualify for consideration. The following conditions must normally be met by the end of the candidate's junior year.

- An exceptionally high grade point average (of at least 3.8) in economics and other courses.
- Completion with strong grades of Economics 381-1,2 Econometrics or MATH 386-1,2
   Econometrics for MMSS.

- Completion with strong grades of preparatory courses in mathematics
  - o MATH 320-1,2 Real Analysis or MATH 321-1,2 MENU: Real Analysis
  - MATH 300 Foundations of Higher Mathematics or MATH 291-3 MENU: Intensive Linear Algebra and Multivariable Calculus
  - MATH 226 Sequences and Series or MATH 281-2 Accelerated Mathematics for ISP: First Year
  - o MATH 250 Elementary Differential Equations
  - o MATH 240 Linear Algebra or equivalent course
  - Calculus through MATH 230-2 Multivariable Integral Calculus or MATH 285-3
     Accelerated Mathematics for MMSS: First Year or equivalent courses.

The MENU and MMSS programs are particularly well-suited for this preparation.

 Development of an idea or ideas for a potential thesis topic, and identification of potential thesis advisor(s).

#### **Course Credits**

In their final year, the candidate must satisfy The Graduate School's requirements of three quarters of full-time graduate study, which consist of at least three, but no more than four, courses each quarter bearing graduate credit. Graduate-credit courses are those listed by The Graduate School; they include most courses at the 300 level and above.

The Graduate School allows a maximum of three courses to count towards both the undergraduate and graduate degrees. The MA degree requires 9 units. At most three units of these can be used to satisfy the 45 units required by WCAS to obtain an undergraduate degree.

### Thesis Requirements

A thesis, either an independent one for the MA or one for honors in Economics or MMSS that is administered through those programs under an Economics advisor. The thesis must be an original piece of economic research of journal-article length. The thesis must be submitted no later than four weeks before the end of the student's final quarter and found acceptable by two graduate faculty readers. A final oral examination on the thesis is conducted by the faculty readers. Students writing an independent thesis must enroll in ECON 499 *Independent Study* for the quarter in which the thesis is submitted. Students writing a suitable thesis for honors in their undergraduate degree must register for an additional graduate-level (300 or 400-level) economics course that is selected in consultation with, and approved by, the Director of Undergraduate Studies.

#### Additional Information

Undergraduates interested in this program should consult the Director of Undergraduate Studies early in their studies, certainly no later than the fall quarter of the junior year.

After obtaining the approval of the Director of Undergraduate Studies, students submit a formal application to enter the program to The Graduate School.

Read additional information by The Graduate School on Bachelor's/Master's Combined Degrees at:

https://www.tgs.northwestern.edu/admission/academic-programs/explore-programs/combined-degree.html

Topics include status as an undergraduate or a graduate student and implications for financial aid.

#### **Nondiscrimination Statement**

Northwestern University does not discriminate or permit discrimination by any member of its community against any individual on the basis of race, color, religion, national origin, sex, pregnancy, sexual orientation, gender identity, gender expression, parental status, marital status, age, disability, citizenship status, veteran status, genetic information, reproductive health decision making, or any other classification protected by law in matters of admissions, employment, housing, or services or in the educational programs or activities it operates. Harassment, whether verbal, physical, or visual, that is based on any of these characteristics is a form of discrimination. Further prohibited by law is discrimination against any employee and/or job applicant who chooses to inquire about, discuss, or disclose their own compensation or the compensation of another employee or applicant.

Northwestern University complies with federal and state laws that prohibit discrimination based on the protected categories listed above, including Title IX of the Education Amendments of 1972. Title IX requires educational institutions, such as Northwestern, to prohibit discrimination based on sex (including sexual harassment) in the University's educational programs and activities, including in matters of employment and admissions. In addition, Northwestern provides reasonable accommodations to qualified applicants, students, and employees with disabilities and to individuals who are pregnant.

Any alleged violations of this policy or questions with respect to nondiscrimination or reasonable accommodations should be directed to Northwestern's Office of Equity, 1800 Sherman Avenue, Suite 4-500, Evanston, Illinois 60208, 847-467-6165, equity@northwestern.edu.

Questions specific to sex discrimination (including sexual misconduct and sexual harassment) should be directed to Northwestern's Title IX Coordinator in the Office of

Equity, 1800 Sherman Avenue, Suite 4-500, Evanston, Illinois 60208, 847-467-6165, TitleIXCoordinator@northwestern.edu

A person may also file a complaint with the Department of Education's Office for Civil Rights regarding an alleged violation of Title IX by visiting <a href="https://www2.ed.gov/about/offices/list/ocr/complaintintro.html">https://www2.ed.gov/about/offices/list/ocr/complaintintro.html</a>

or calling 800-421-3481. Inquiries about the application of Title IX to Northwestern may be referred to Northwestern's Title IX Coordinator, the United States Department of Education's Assistant Secretary for Civil Rights, or both.
